

FAMILY SEARCH CENTERS

You can now go directly to Family Search Center website and find the closest center to you.

www.FamilySearch.org/en/site-map

Scroll down to the line that says [Find a local FamilySearch Center.](#)

The selection of Find a FamilySearch Center will take you to a global map with instructions to fill in a city name or a zip code.

All the FSC in the area will come up with a green upside down teardrop and the public libraries that are now affiliated with FamilySearch will also come up as brown upside down teardrops. Expanding the screen will separate out the locations so one can find the Center and/or Library closest to them with their phone numbers and hours of operation listed.

There is **NO FEE** for using any of these research facilities and volunteers are there to help YOU.
